

# Ocean Research - Which is Bigger?

Take note of the ten largest bodies of water on the planet. This week's research task is to find the total area of each one and discover which continents they cover.

Body of Water (Ocean, Sea, Gulf)	Continent(s)	Total Area (sq km)
Pacific Ocean		
Atlantic Ocean		
Indian Ocean		70,560,000
Southern Ocean (Antarctic Ocean)	Antarctica	
Arctic Ocean		14,056,000
South China Sea		
Caribbean Sea		
Mediterranean Sea	Europe, Africa, Asia	
Bering Sea		
Gulf of Mexico	North America	

# Ocean Research - Where is it?

Now you understand each of these bodies of water. Locate them on the world map and record your findings below. (The first one has been done for you)
