

THE IMPORTANCE OF SEA ICE

Follow each arrow and start to understand how melting sea ice helps every organism on Earth.

WHEN ICE IS SAVED

EARTH STAYS COOLER

ANIMALS HAVE A HABITAT

OCEAN CURRENTS NOT DISTURBED

GLOBAL WEATHER IS STABLE

SEA TEMPERATURES STAYS COOL

SEA LEVELS REMAIN THE SAME

By protecting sea ice we help every organism on Earth.

WHEN ICE MELTS

EARTH BEGINS TO WARM UP

ANIMALS LOSE THEIR HOME

THE OCEAN MOVES DIFFERENTLY

WEATHER BECOMES UNPREDICTABLE

THE OCEANS START TO WARM UP

SEA LEVELS RISE HIGHER

When ice melts it causes a lot of problems for our world.
