Things to Teach

Talk to your buddy about illustrations and the kind of things that they need to include. Remind them of inferential clues.

Read pages 26-29 with your partner and answer the questions using the pictures to help. Ask your buddy to show you how they came up with the answer.

Using technology, it is time to show your partner how to duplicate a page and add pages to their book and start illustrating.

Discuss with your partner some extra time when you can meet them to help them with their illustrations. They will need extra help.

You will need to show your partner your poster to help them launch their book. Ask them some questions about their book and help them design their poster.
