

THE MOON

The moon has three layers that are very different to the layers on Earth. Conduct your own research on the layers of the moon and complete the blank areas below to complete this factsheet.

What's Inside?

[Blank box for labeling the outer layer of the Moon]

[Blank box for labeling the middle layer of the Moon]

[Blank box for labeling the inner layer of the Moon]

How the moon helps us!

[Blank area for writing about how the moon helps us]

How was the moon created?
